V. MATERIALS (Required)

- A. The Holy Bible, www.gatewaybible.com, Price: \$0
The Bible is a required textbook in every course at Calvary University. To facilitate academic level study, students are required to use for assignments and research an English translation or version of the Bible based on formal equivalence (meaning that the translation is generally word-for-word from the original languages), including any of the following: New American Standard (NASB, English Standard Version (ESV), New King James (NKJV), or King James (KJV). Other translations and versions based on dynamic equivalence (paraphrases, and thought-for-thought translations like NLT and NIV) may be used as supplemental sources. Please ask the professor if you have questions about a particular translation or version.
- B. Other Textbooks:

Boynton, A., & Fischer, B. (2005). *Virtuoso teams: Lessons from teams that changed their worlds*. New York, NY: Pearson Hall Financial Times. ISBN: 978-0273721833

Retail price **\$24.99**

Lencioni, P. (2002). *The five dysfunctions of a team: A leadership fable*. San Francisco, CA: Jossey-Bass. ISBN: 978-0787960759 Retail price **\$24.95**

Palmer, I., Dunford, R., & Akin, G. (2009) *Managing organizational change: A multiple perspectives approach*. (2nd Ed.) Boston, MA: McGraw-Hill. ISBN: 978-0073404998 Retail price **\$107.99**. (Students are encouraged to buy used copies. 1st edition will work for this course and is inexpensive.)

VI. **COURSE ASSIGNMENTS – Read Carefully!**

- a. Students are to read course textbooks, and write reflections/interactions on what they believe are the most important learning outcomes from Boynton and Lencioni – two separate papers. For this assignment, headings should indicate major sections and the subtitles for each learning outcome. Each of the two reflections will be a minimum of 850 + words of total text. Students may write more. (Word count may be checked by highlighting your text and selecting [Review] [Word Count]). This is intended to be a guide rather than an absolute standard; however, reflection papers below the minimum word count are not thorough enough. **Assignment due: See Canvas.**
- b. Using the Palmer text choose 10 critical analysis questions (your choice) from the last seven chapters of the textbook. Type out the questions and answers to the question to demonstrate adequate reflection on the course materials. There are questions are found at the end of each chapter. Please answer appropriate follow-up questions too. Students may complete a one-page case study analysis using studies referenced in the textbook as a substitute. Answers are expected to be thorough and reflective. **Assignment due: See Canvas.**
- c. Engage in discussion questions found in Canvas Forum online. Students must participate in discussion questions weekly. Students must answer instructor's questions at a minimum to receive any credit. For full credit, students must respond to classmate posts too. Students should post at least three times a week while class is in session. Class size may adjust these requirements. **Assignment due: weekly**
- d. Complete final exam on Canvas. **Assignment due: December 17, 2021.**

The objective, therefore, is not addressed and supporting materials are not correctly referenced.</p> <p><i>48.9 or FEWER POINTS</i></p>	<p>The writer demonstrates limited understanding of the subject matter in that theories are not well connected to a practical experience or appropriate examples, though the attempt to research the topic is evident, and materials are correctly referenced.</p> <p><i>49 to 65.9 POINTS</i></p>	<p>The writer demonstrates an understanding of the subject matter by clearly stating the objective of the paper and links theories to practical experience. The paper includes relevant material that is correctly referenced, and this material fulfills the objective of the paper.</p> <p><i>66 to 75 POINTS Grade:</i></p>

What is a Substantive Post? © 2016

By Skip Hessel, D.M.

In a world of social media and text-messaging, interaction between student and teacher and other students is important. However, scholars begin to blur the boundaries of academic substance. Students want to make good grades and receive fair treatment. Instructors want to share principles of their discipline. In an effort to clarify how to post thoughts in an interactive forum, these instructions attempt to define substance.

A substantive post conveys a complete thought with academic rigor. Student scholars must take into account the wide variety of readers in a social media setting and communicate appropriately. One cannot assume that every reader has had exactly the same training or even similar experiences. Ergo, one must write complete thoughts to overcome any inadequacy. Similarly, academic rigor forgoes any thoughtless conclusions. While expressing new ideas and exercising academic freedom, contributors must consider what is known about the subject and include known knowledge in academic writing. Writers should consider the level of knowledge and use certain amount of judgement too. Substance requires balance. Scholars should consider their readers and communicate as well as possible.

Because today's academic environment includes many cultures, writers must consider the inappropriate use of metaphors and colloquialisms. An expression or satire may not make sense to a reader from a culture in another part of the same country or on the other side of the world. Students posting substantive responses avoid using expressions and phrases with vague meanings that the reader could misunderstand.

Substantive posts also cite sources. When using the ideas of others, a scholar gives appropriate in-text citations when responding to forum. For example,

Blackaby and Blackaby (2011) found many believers get frustrated with technology and media that has become commonplace; however, believers must “embrace technology with gusto” (p. 8).

Others who express innovative thinking should receive credit for their ideas and intellectual property. Additionally, readers should have the opportunity to consider source materials themselves. A substantive post will include such citations.

Students often ask for specific guidelines. Unfortunately, students sometimes put minimum requirements ahead of quality responses. At the risk of students falling into this trap, the instructor believes a substantive post will contain one or two complete paragraphs that include approximately 300 words. Some substantive posts convey meaning with less; however, many require much more. Moreover, a substantive post will demonstrate the scholar’s attempt to grow. Therefore, assigned reading materials and other sources are found as in-text citations and as references. At a minimum, each substantive post will contain at least one. Students expecting great evaluations should include at least one citation in a 300+ word post.

In many ways, participating in a forum raises tremendous opportunity. The asynchronous learning environment allows students to consider the thoughts of others, to research the subject, and to respond in their own time. Students should take advantage of this unique opportunity. Your instructor will gently correct you and evaluate you along your journey. But, great students will consider how they can practice these skills from their very first post.
