Institutional Learning Outcomes:

1. Students will be able to construct sound conclusions based upon a proper analysis of qualitative and quantitative data.
2. Students will be able to demonstrate sound research methods for inquiry and the dissemination of knowledge.
3. Students will be able to apply a consistent literal grammatical-historical interpretation of the Bible in order to think from the biblical worldview.
4. Students will utilize their gifts and abilities to serve with excellence in their local church and chosen profession.
5. Students will be able to develop discipling relationships and contribute to the spiritual growth of others by employing principles of servant-leadership.

Mentor Evaluation of Students

Students serve in local churches, parachurch ministries, or non-profit organizations serving community spiritual needs throughout the greater Kansas City area, and in local areas for online students not in the greater KC area. Supervisory mentors rate student performance using a Likert scale of 1 to 5 (1 being the lowest score, 5 being the highest score) in 17 areas displayed on the following tables. The benchmark indicating overall outcomes achievement is 70% of students should be rated a “4” or “5” in each of the evaluative areas. Numbers associated with each evaluative area (example: “Ability to admit mistakes (5)”) indicates alignment with an Institutional Learning Outcome.

[Table 1](#) depicts scores for spring 2026 graduating students who participated in the PCM program during that semester. Some students already completed their PCM requirements, so they were not included in these calculations since they were done by spring 2026.

The subsequent tables (beginning with [Table 2](#)) display breakouts by department for all students in the PCM program during spring 2026.
