3. Plagiarism

Plagiarism is defined as copying any content without identifying the source. This also includes taking another person's or AI entity's ideas or constructs and presenting them as your own. Plagiarism of any kind will not be tolerated. Most assignments at Calvary require the student to produce original work. Therefore, unless specifically permitted by the instructor, the use of AI-generated content is prohibited (even if cited) as it does not represent original work created by the student and is an unreliable aggregate of ideas from other sources. AI, however, may be utilized in cases where the instructor has explicitly permitted its use to accomplish specific tasks. It is only in these cases that AI-generated (or modified) content may be submitted by the student. If there are any questions as to the permissibility of AI use for an assignment, please ask your instructor for clarification.

V. METHODS

A. In-class methods include lecture, discussion, demonstration, sight-singing, and ear-training activities.

B. Grading

1. Assignments (40%)

Assignments are assigned regularly over the course of the semester to review class materials. Assignment grades are all recorded and will be averaged out at the end.

Resubmission for a better grade is possible for every assignment. From the return of assignments, you have one week to be able to work on the critiques, comments and errors, and make corrections, and resubmit the assignment. This new grade will be counted in place of the initial.

2. Midterm exam (30%)

Be able to demonstrate how you analyze and work out the given questions on the spot. Individual sessions will be arranged.

3. Final exam (30%)
